Core AGC 109

No	Topic Name	Mark
00	Visual Studio 6 SP6 Upgrading	
01	Data Stracture - Variables	
02	Data Stracture - String Variables	
03	Data Stracture - Numerical variables	
04	Data Stracture - General Declerations	
05	Data Stracture - String Functions	
06	Data Stracture - WorkFlow on Counter Class part I	
07	Data Stracture - WorkFlow on Counter Class part II	
08	Data Stracture - WorkFlow on Counter Class part III	
09	Data Stracture - WorkFlow on Counter Lab part XI	
10	Data Stracture - Counters & For-Next	
11	Data Stracture - DemoValidation-Project	
12	Data Stracture - Do while part 1	
13	Data Stracture - Do while part 2	
14	Data Stracture - IF-EndIf-Project	
15	Data Stracture - Select Case Project Class part 1	
16	Data Stracture - Select Case Project part 2	
17	Controls - MenuEditor	
18	Controls - List Dir , Drive control and File list box	
19	Controls - Combo box Control part I	
20	Controls - Combo box Control part II	
21	Controls - HScroll - VScroll Controls	
22	Controls - MSAnimation Control	
23	Controls - MSUPDown Control	
24	Controls - MSMonthView Control	
25	Controls - MSDTPicker Control	
26	Controls - MSFlatScrollBar Control	
27	Date Time Functions	
28	How to save Visual Basic Peoject	
29	Data Base Introduction	
30	Bank Data Base Class	
31	Creating Data Base access XP	
32	Create DataBase with MSAccess 2007	
33	Create DataBase with Visual Data Manager	
34	Data Control Programming I	
35	Data Control Programming II	
36	Data Control Programming III	
37	Data Control Programming XI	
38	New ,Save And Delete Record Programming By DataControl	
39	Find With DataControl	
40	Find With DataControl And InputBox	
41	Data bound grid using select	
42	Data Control And DBGrid and Bank Project	
43	School Project analysis	
44	School project Creating DataBase	
45	School Project LAB A	
46	School Project LAB B	
47	School Project LAB C	
48	SQL (Structured Query Language)-Select Statement I	
49	SQL (Structured Query Language)-Select Statement II	
50	Select Statement Operators part I	
51	Select Statement Operators Part II	
52	Using Select And Condition By Where	
53	Select With Ucase Function	
54	Select with Left , Right and Mid	
55	Select with Top and SUM	
56	Select with DISTINCT	
57	Select with Category and SUM	
58	Using DBCombo with DataBase	
59	working with DataControl By Code	
60	Store project Class I	
61	Store project Class II	
62	Store Project - Create DataBase	
62	Store Project - Vendors I	
63	Store Project - Vendors II	
64	Store Project - Items	
65	Store Project - Move Items	
66	Store Project - Payments
